Dear Parent / Carer

Re: Year 6 Homework Books

Now that your child is in Year 6, they will be taking their KS2 SATs – Standard Attainment Tests - in May. With these national assessments come increased expectations and a greater workload. In order to ensure all children are fully prepared, we will expect a greater amount of independent work to be completed at home.

A £12 contribution will be expected please in order for every child to have the necessary workbooks. Your child will then be given twelve books, to be completed at home over the academic year, which will consolidate the learning that has taken place in school. Your child will never be asked to complete homework that has not been previously taught in school and the pages that they need to do will be on their weekly spelling (homework) sheet.

Please make the £12 payment for these books via SCOPay.

We hope you understand the importance of school and home working together to give your children the best possible chances, and ensure the core values that we as a school promote, become characteristics and attributes that your children can carry forward to the future.

Yours sincerely,

The Year 6 Team
